The Ishara Research Series is an open access series dedicated to current research in sign language linguistics and Deaf Studies. The series is designed for publications that are of current relevance to the field but are not easily accommodated within the scope of conventional outlets. This innovative format is ideal for young researchers and first-time authors publishing work of high academic quality. The series is intended to be a tool for stimulating research in emerging areas, with particular emphasis on promoting Deaf authors and authors in countries where sign language studies and Deaf Studies are not yet established disciplines.

Titles in the Ishara Research Series
