Richard Stanton	Early 1970s	Devon (provincial)	8 August 2012

Pseudonyms have been used in all cases to protect the anonymity of the GPs and to safeguard the anonymity of people and places mentioned in the interviews. Among the GPs were a number of respondents who fulfilled senior professional and academic posts in addition to the role of practising GP, including a professor of general practice, a former president of the RCGP and a former associate dean of general practice. Several of the respondents came from families with a long and well-respected medical family heritage.
